

# SYSTEM CHANGE NOT

**CLIMATE  
CHANGE**

**COP26 IS THE UNITED NATIONS GLOBAL SUMMIT  
FOR TACKLING CLIMATE CHANGE. 2-11 NOVEMBER IN GLASGOW**

**DEMAND CLIMATE JUSTICE NOW!!  
12 NOON, SATURDAY 6 NOVEMBER  
KELVINGROVE PARK, GLASGOW**

## What has COP done so far?

Change has been too limited and too slow. COP planned to limit global warming to a 1.5c increase but there has already been a 1.2c increase. Exceeding 1.5c will expose 2 billion people to heat stress, crop failures, and freshwater scarcity.

COP Delegates prioritise profit above scientific evidence. The system of “carbon emission trading” allows rich countries to trade excess emissions with poorer countries, keeping “business as usual”.

We need climate justice **NOW**. Make your voice heard!

## PROTEST: SATURDAY 6 NOVEMBER, 12 NOON, KELVINGROVE PARK, GLASGOW
